

1199 HOSPITAL WORKERS KNOW THE VALUE OF CONTINUING EDUCATION!

Many of us working in healthcare either want to advance our careers, or are required to take regular classes to keep up our license. But often we find that our lives are too busy or the classes are too expensive. That's why the members of 1199SEIU have established a wide range of training and education opportunities, including:

- ✓ **No-cost or low-cost medical classes** at local colleges and universities.
 - ✓ **Reimbursement for tuition** at other accredited institutions, up to a maximum of six credits per semester and a total of 24 per year.
 - ✓ **No-cost seminars and health care related classes** at 1199SEIU.
 - ✓ **No-cost classes** in computer literacy, English and other skills at 1199SEIU.
 - ✓ **Paid time off to attend classes.**
 - ✓ **Up to \$11,000 reimbursement** for books, travel and fees for the entire LPN program.
 - ✓ **Up to \$750 a year** to attend professional conferences and seminars to stay current in the health care field.
 - ✓ **Training in new, more marketable skills** if job requirements CHANGE.
- “...members of 1199SEIU have established a wide range of training and education opportunities...”

When we join with 1199, we will choose to negotiate that the healthcare workers at Northern Dutchess be the top choice for job openings and promotions. We will make sure that we always get priority over 1199 members from outside facilities.
